Objective:

Aspiring Java Backend Developer with strong knowledge in Java and SQL. Passionate about building scalable backend systems and eager to grow through hands-on training and team collaboration.

INTERNSHIP EXPERIENCE:

1. Intern – NTI (May 2025 – Present)
 - Master HTML, CSS, and JavaScript to build modern, interactive websites.
 - Design responsive websites that adapt to all screen sizes and devices.
 - Build engaging user interfaces using animations, transitions, and event handling.
 - Completed hands-on tasks after each training session and uploaded all projects to GitHub using Git version control.
 2. Intern – ITI (July 2024 – August 2024)
 - Create Java classes and use object references.
 - Encapsulate a class using access modifiers and overloaded constructors.
 - Define and implement a simple class hierarchy.
 - Demonstrate polymorphism by implementing a Java Interface.
 - Handle a checked exception in a Java application.
-

PROJECTS:

1. Student Portal Management System

A dynamic web application designed to help students manage their academic activities through a secure portal.

- **Key Features:**
 - Student Authentication – Sign-in and secure session management using HttpSession
 - View Teachers – Fetch and display assigned teacher details from MySQL database
 - Check Grades – Show grades securely and cleanly from the backend
 - MVC Architecture – Clear separation of logic, view, and data layers
 - Database Integration – Connected via JDBC to a MySQL database
-

SKILLS:

Technical Skills

- **Front-End:** HTML/CSS, JavaFX, Java Swing.
 - **Back-End:** MySQL, jdbc, Hibernate, JSP, Servlets, RESTful.
 - **Languages & Frameworks:** Java, JavaScript, Spring Boot.
 - **Tools:** Git, GitHub.
-

EDUCATION:

Bachelors in Business Information Systems
Higher Institute for Specific Studies, Giza, Egypt

(2022 – 2026)
