

ABANOUB WAGIM IBRAHIM

Junior Java Full Stack Developer

+20 1555463140 • abanoubwagim@gmail.com • linkedin.com/in/abanoubwagim • github.com/abanoubwagim

Summary

Java full-stack developer with hands-on experience in building secure, scalable web applications using Java, Spring Boot, and RESTful APIs. Skilled in back-end development, database design (MySQL, Hibernate), and front-end technologies (HTML, CSS, JavaScript, Bootstrap). Proven ability to deliver projects from concept to deployment, demonstrated through personal projects and internships at NTI and ITI. Strong foundation in OOP, microservices, and software engineering principles, with a passion for clean code and practical problem-solving.

Experience

NTI	
Intern - Front-End Developer	05/2025 - 07/2025
Internship experience as a Front-End Developer	
<ul style="list-style-type: none">Master HTML, CSS, and JavaScript to build modern, interactive websitesDesign responsive websites that adapt to all screen sizes and devicesBuild engaging user interfaces using animations, transitions, and event handlingCompleted hands-on tasks after each training session and uploaded all projects to GitHub using Git version control	
ITI	
Intern - Java Developer	07/2024 - 08/2024
Internship experience as a Java Developer	
<ul style="list-style-type: none">Create Java classes and use object referencesEncapsulate a class using access modifiers and overloaded constructorsDemonstrate polymorphism by implementing a Java InterfaceHandle a checked exception in a Java application	

Education

Higher Institute for Specific Studies	Giza, Egypt
Bachelors in Business Information Systems	10/2022 - 07/2026

Skills

- Programming Languages:** Java, JavaScript, SQL
- Web Technologies:** HTML, CSS, JSP
- Frameworks & Libraries:** Spring, Spring Boot, Spring MVC, Hibernate ORM, Bootstrap
- Database Management:** MySQL, JDBC
- Core Concepts:** Object-Oriented Programming (OOP)
- Tools & Version Control:** Git & GitHub
- Soft Skills:** Problem-Solving, Team Collaboration, Communication, Adaptability, Time Management.

Projects

SkillSwap – Skill Exchange Platform

<https://github.com/abanoubwagim/SkillSwap>

- User authentication and profile management with secure sessions.
- Manage offered and requested skills stored in MySQL via MVC.
- Send and accept skill swap requests with integrated chat and notifications.
- Optimized database queries, reducing player data retrieval time by 70%.

FIFA Player Management System

<https://github.com/abanoubwagim/Player>

- Full CRUD operations for player data with secure backend logic.
- Built with Spring MVC and Hibernate, backed by MySQL.
- Frontend using JSP, JSTL, and Bootstrap for clean, responsive views
- MVC architecture, XML-based configuration, deployed on Tomcat
